

Erin Keller

FULL STACK DEVELOPER

Profile

Highly proficient and committed Full Stack Developer with a strong technical background and over a decade of front-end experience. Known for consistently staying updated with cutting-edge skills and industry knowledge. Demonstrated expertise in coding responsive websites and web applications, utilizing a wide range of technologies such as HTML5, CSS/LESS/SASS, JavaScript ES6, jQuery, JSON, Node, MySQL, MongoDB, Sequelize, React, PWA, NoSQL, and MERN stack.

Employment History

Learning Developer, IBM, Lansing

MAY 2013 – PRESENT

- Works in an agile environment with weekly stand-ups, tracks issues in Jira, and conducts sprint, planning and retrospectives every two weeks.
- Rebuilt 5-year-old PHP application in React with full user experience redesign (Leadership Academy).
- Refactored legacy HTML to meet industry standards and Accessibility compliance.
- Utilized HTML, CSS, and JavaScript to create 100+ responsive pages.
- Produced and assisted in the deployment of 10+ various web applications for our HR clients.
- Developed responsive and user-friendly web interfaces using HTML, CSS, and JavaScript, ensuring cross-browser compatibility and accessibility standards.

Student Programmer, Lansing Community College , Lansing

MAY 2012 – MAY 2013

- Collaborated with business stakeholders to analyze their requirements and identify opportunities for developing custom solutions that streamline and improve business processes.
- Leveraged PL/SQL queries to manage and manipulate data within databases, ensuring efficient data retrieval and maintaining data integrity.
- Developed applications using Application Express, a low-code development platform, to create user-friendly and functional interfaces for various projects.
- Assisted in the installation and configuration of new applications and versions, ensuring smooth deployment and seamless integration with existing systems.
- Participated in code reviews, providing feedback and suggestions to improve code quality, performance, and adherence to coding standards.

Front-end Developer, Tripper's, Lansing

SEPTEMBER 2010 – SEPTEMBER 2011

- Designed and developed the company's website, adhering to industry best practices and implementing accessible design standards to ensure an optimal user experience.
- Created and maintained an interactive menu on the website, employing modern front-end technologies to enhance usability and navigation for site visitors.
- Managed the web application utilized by the manager, efficiently handling patron correspondence and providing seamless communication between the business and its customers.
- Utilized expertise in HTML and CSS to craft visually appealing and responsive web interfaces, ensuring compatibility across multiple browsers and devices.
